FSC Catch Database

Catch
Monitoring
Program

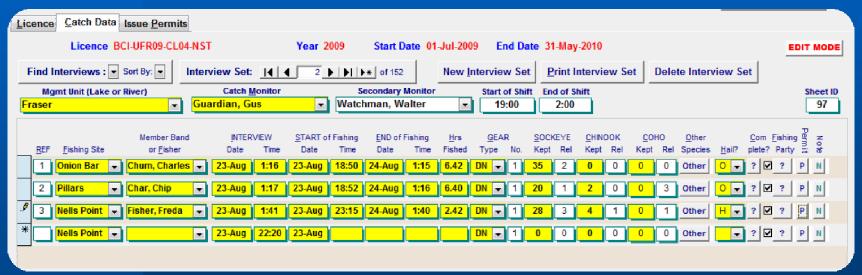

Fraser Salmon & Watersheds Program

What is it?

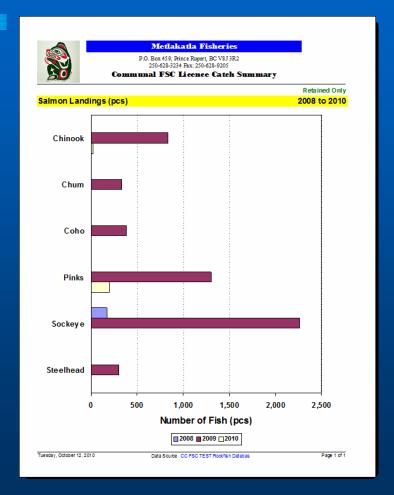

Centralized Database Management System

- Secure storage of fishers, staff, contacts, vessels
- Tracks catch by fisher, date, gear, location, species
 - Optionally tracks fish maturity, markings, releases

What does it do?

Provides in- and postseason catch reports

Graphs of catch, effort, CPUE

What else can it do?

Issues:

Fishing Permits & Transport Permits

and/or Designation Cards & Letters...

FRASER FIRST NATION

Address, Fraser River, BC, Z1P 607 Tel: 250-999-9999

FISH TRANSPORT AUTHORIZATION

NAME: C	HIP CHAR	YEAR: 2010
BAND: No	orthern Shuswap Tribal Council	STATUS:
ADDR:		PERMT: FF10001

This Fraser First Nation FSC transportation permit authorizes the permit holder to transport Food, Social and Ceremonial caught fish only to the specified location during the specified time period for demestic use only. This permit is not transferable and the amounts identified for species must match the amount being transfered. Transport sale is not remitted.

Species	Amount		
Sockeye	1000	lbs	_
Coho			
Pinks	500	pcs	
Chum			
Chinook	38	cans	
Other			
/! Here			
D: There			
5: 10-Jul-10		EXPIRY DATE:	13-Jul-10
S: Fresh frozen. CN canned.			

I hereby declare that I have read and understand the terms and conditions set forth and agree to full compliance to exercising this permit.

DATE BAVED	SIGNATURE OF FISHER	Signature of Fraser First Nation Resource Manager

Anything else?

→ Standardized data exchange with DFO via email exports

- Software tool for FN catch data management
- Census-type catch monitoring programs
- Catch & effort tracked by communal licence, permit, or designation card
- Data analysis and reports for FN
- Data exchange with DFO

FSWP Partner (2008-2010) for:

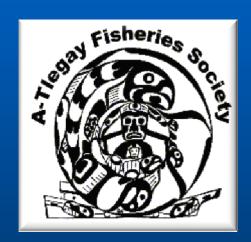

- Improved catch monitoring
- Capacity development
- Integrated co-management
- Sustainable in-season Fraser fisheries management

Fraser Salmon & Watersheds Program

FSWP Project Goals

- Strategies/technologies to reduce impacts on weak fish stocks
- Coordination, collaboration and fisheries information exchange
- New assessment approaches for in-season fisheries management

Fraser Salmon & Watersheds Program

Benefits to First Nations

- Manage Communal FSC Needs
 - Track communal fish requests, and fish distribution
 - Document shortfalls regarding allocations
 - Improve data reliability for treaty table negotiations
- Use with Non-FSC Harvest Data
 - Economic opportunity fisheries
 - Experimental fisheries
 - Research-based (test) fisheries

Long-term Benefits to First Nations

- Builds technical capacity and skill-sets
- Elevates fisheries management role of First Nations
- Promotes workable solutions on allocations of shared fisheries resources between First Nations
- Assists in conservation and rebuilding of fishery resources
- Affirms aboriginal legal rights and title and interests in resources

Current Users – South Coast (2007)

- A'Tlegay (Campbell River)
- Nam'gis (Alert Bay)
- Tseshaht (Port Alberni)
- Hupacasath (Port Alberni)
- Pacheedaht (Port Renfrew)
- Ahousaht (Flores Island)
- Hesquiaht (Hotsprings)
- Sechelt (Sunshine Coast)
- Sliammon (Powell River)

Current Users – Central Coast (2009)

- OKHN Tribal Council
 - Wuikinuxw (Rivers Inlet)
 - Kitasoo / Xaixais (Kitasoo)
 - Heiltsuk (Bella Bella)
 - Nuxalk (Bella Coola)

Current Users – North Coast (2010)

- Skeena FN Fisheries Society
 - Metlakatla (Fort Simpson)
 - Laxkw'Alaams (Prince Rupert)
 - Git-ga'at (Hartley Bay)
 - Kitsumkalum (Kitimat)

Current Users – Fraser - 2008-2010

- Fraser First Nations (FSWP Project)
 - Northern Shuswap Tribal Council
 - Tsilhqot'in National Government
 - Carrier Sekani Tribal Council
 - Tl'azt'en First Nation
 - Esketemc First Nation
 - Lheidli T'enneh First Nation
 - Tsawwassen First Nation
 - Musqueam First Nation

Project Resources

FSWP / A'Tlegay Fisheries Society provides:

- FSC Catch DBMS program
- Installation, training, technical support

Participating FN Fisheries Office provides:

- Computer hardware & MS-Office software
- Personnel DBA and Data Technician(s)
- Long-term db maintenance and customization costs

AAROM (?) body provides:

Regional Data Management Advisor (recommended)

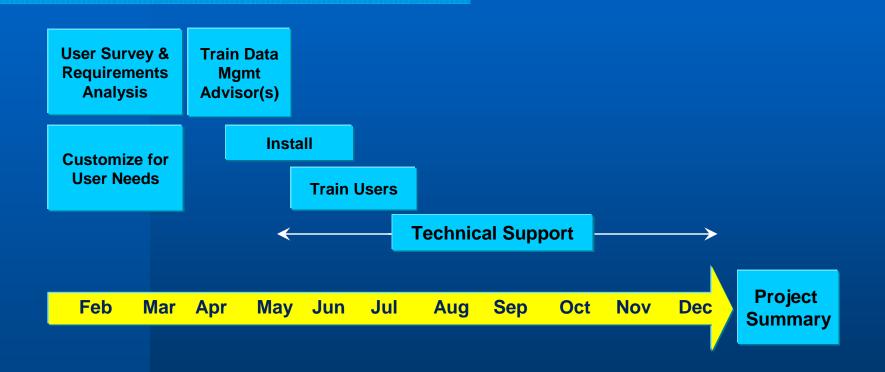

Database System Requirements

- Computer: Pentium 4 processor or better
- Hard disk: minimum of 40 Mb of free disk space
- Monitor: screen resolution 1024 x 768 or higher
- Internet: Hi-speed for technical support
- Software: MS-Office Professional
 - 2002/2003 (XP) or 2007, including:
 - MS-Access (optional)
 - MS-Outlook (optional)

Project Methodology

- 1. Perform User Survey assess capacity
- 2. Selection Process prioritization
- 3. User Requirements Analysis assess needs
- 4. Customized DBMS Upgrades
- 5. Database Installation & Training
- 6. Technical Support
 - Online Meeting technology (remote)
 - Data Management Advisor (local / remote)

Deployment Schedule – 2011
